Professional Summary

Full-stack developer with hands-on experience in React, Node.js, and PostgreSQL, focused on building scalable web applications with clean UI and robust RESTful APIs. Known for fast learning, strong execution, and quickly adapting to new technologies while delivering reliable, production-ready features across frontend and backend.

Technical Skills

Languages: JavaScript (ES6+), Core Java, C++ (basic)

Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS

Backend: Node.js, REST APIs

Database: PostgreSQL

Tools Platforms: Git, GitHub, Postman, VS Code

Soft Skills: Adaptability, Teamwork, Collaboration, Leadership, Communication

Experience

React Developer Intern, AMPARO Secure Tech – Bhilwara (3 Months)

- Built and maintained frontend modules using React.js + Tailwind CSS with wishlist, cart, and product filter features.
- Developed an EdTech tutoring web platform in React with live classes, book-a-mentor system, course purchase flow, admin course upload, and student dashboard for content access.

Full Stack Developer Intern, Media City – Bhilwara (6 Months)

- Worked on full-stack development using React/Next.js and Node.js, contributing to module development, REST API building, and gaining hands-on exposure to real project workflows.

Projects

Full-Stack Classified Ads Platform (React + Node.js + PostgreSQL)

- Frontend (React TypeScript): Developed a responsive OLX-type frontend with authentication, product listings, search/filters, wishlist, file uploads, and admin panel.
- Backend (Node.js + PostgreSQL + Postman): Built REST APIs with JWT auth, role-based access, database migrations, file handling, email/SMS alerts, Swagger docs, and Socket.IO for real-time chat.

Marketplace Frontend Web Application (Next.js)

- Developed a scalable marketplace frontend using Next.js, TypeScript, and Tailwind CSS. Features include reusable UI components, authentication, wishlist/cart, SEO routing, and lazy-loaded assets.

E-commerce Website (React + Tailwind CSS)

- Built a responsive e-commerce platform with product browsing, filtering, cart, checkout, profiles, wishlist, and real-time chat with a mobile-first design.

Security Equipment E-Commerce Platform

- Developed a React + Vite platform for surveillance product sales with secure checkout, modular components, and optimized UI for performance and accessibility.

JavaScript Projects (HTML, CSS, JS)

- Built a Music Player and To-Do App to improve DOM manipulation, UI logic, and JavaScript fundamentals.

Education

B-Tech in Information Technology – M.L.V.T. Engineering College, Bhilwara Expected Graduation: May 2026

Certifications: Advanced Java – MSME Technology Centre | IBM Summer Internship Certificate | AMPARO Secure Tech | MEDIA CITY
